COLUMBUS, Ohio (AP) - The Ohio House votes today on a bill to keep state officials-including legislators-on the straight and

Two years ago, Democratic Gov. Michael V. DiSalle asked a legislature dominated by his own party to adopt a bill defining conflict of interest. He got nowhere.

Now, a Republican - controlled legislature seems inclined to adopt a code of ethics for state officials and their employes and for lawmakers and their employes patterned after a New York State

Senators Laud McNamara's **Defense Views**

WASHINGTON (AP) - Senate veterans today credited Secretary of Defense Robert S. McNamara with stout and logical arguments for major changes in this nation's military might.

McNamara said a study of the general position brought the decision "to reduce our dependence on deterrent forces which are highly vulnerable to ballistic missile attack or which rely for their survival on a hair-trigger re sponse to the first indications of such an attack.'

"Secretary McNamara has acquired an amazing knowledge of our defense problems in relatively few months," Sen. Richard B. Russell, D-Ga., chairman of the Senate Armed Services Committee, said Tuesday after nearly six hours of closed-door testi-

GOP Leaders

Aim: To Hang Kennedy If Reds Grab Laos

WASHINGTON (AP) - Republican congressional leaders appear to be constructing a record aimed at putting the blame on the Kennedy administration if Laos eventually falls into Communist hands.

Their strategy, not publicly admitted, seems directed at countering Democratic contentions that President Kennedy inherited from the previous Republican administration of Dwight D. Eisenhower an almost insoluble crisis

military commander in the Congo. McKeown flew from Leopoldville to confer with Tshombe about the mob rampage Tuesday against the U.N. troops in Elisabethville. The Katanga radio and Elisabethville's morning newspaper said today-before the Irish arrivedthat Tshombe and his government had won a great victory.

"The United Nations is shattered," a broadcast said. "They

The Katanga president made clear in a statement that his purpose was to prevent the arrival of Indian U.N. troops. He opposes them because of Indian Prime Minister Nehru's avowed opposition to Tshombe.

Nation's Work Force Surges To New High

But Unemployment Still at Peak Level, Probably Will Remain

WASHINGTON (AP)-The government is studying a sudden puzzling upsurge in the nation's work force that promises to keep unemployment high even with substantial economic recovery.

One possible explanation is that S New Cage many women, and perhaps teenagers, are entering the job markets seeking income because the chief family breadwinner can't find work.

The work force data was put out by the Labor Department Tuesday as part of its regular summary of the nation's employment situation in March.

This showed that while unemployment fell by 210,000 in February to 5,495,000 the decline was less than the 300,000 expected on the basis of past experience. However, it was the first drop in a steady six-montr climb in the idle

Employment on the other hand rose by a whopping 861,000 to 65,516,000. This was a record number at work for March, while the unemployed total was the highest idle figure in March in 20

Walter W. Heller, President Kennedy's chief economic adviser, repeated a forcast that a turnaround in the economy, after its year-long downslide, is close at hand. But he said the nation will be lucky if the unemployment rate, now close to 7 per cent, falls below 4 per cent before 1962.

Seymour Wolfbein. manpower statistics chief, said the latest givernment job report demonstrates that the phenomenon of both high employment and high unemployment can be expected to continue for some time.

Unemployment should drop seasonally in April and May but jump back to more than 1.5 million in June when 2.5 million students flood the work force seeking summer jobs.

WASHINGTON (AP) - British Prime Minister Harold Macmillan and President Kennedy met today for talks on world problems. Of foremost concern was the

crisis in Laos and prospects for a cease-fire there. A fleet of limousines brought the British leader and his ranking foreign affairs advisers into the White House three minutes ahead

of the scheduled start of three

days of intensive policy discus-A bright sun poured down, but

the air was cool and crisp. Macmillan went directly into the White House and was ushered to Kennedy's office where he was greeted by the President.

Although many problems of cold war strategy were due to be considered, today's conversations were expected to concentrate on the rather complex British proposal for a Laotian cease-fire. The British have received indi-

Kennedy, leaving an administration policy conference at the State Department Tuesday night, said that "the cease-fire is what we are most anxious to have, and we are hopeful that . . . we'll have one."

But the critical situation in the distant Southeast Asian kingdom was only one of many major issues scheduled for discussion at the White House meeting. Others include the problem of Red China and a growing movement to give it U.N. membership, the Cuban and Congo situations, the prospect of a crisis later this year over Berlin, and the stalemate in negotiations with Moscow for

a nuclear weapons test ban treaty. The President and prime minister have scheduled four meetings before Macmillan leaves next Sunday for Canada. In addition to morning and afternoon sessios today, they will meet again Thursday afternoon and

Farmer Group Starts Holding Off Livestock

days ago members of the National Farmers Organization (NFO) started holding their cattle, hogs and sheep off the supply markets in the Midwest.

The objective: to close the gap between present prices and what NFO says is the actual cost of production on the farms. Also, to give farmers bargaining power with the processors who turn out the finished meat for the consumer's table.

NFO President Oren Lee Staley said Tuesday night at headquarters at Corning, Iowa, that the holding action will start having its big effect today. It will continue indefinitely, he said.

A poll of the stockyards in the Midwest indicated that the pro cessors were not much excited about the NFO drive and that livestock receipts and prices to date had been about normal.

But Staley predicted a 25 to 40 per cent reduction in the new supply of cattle, hogs and sheep today as compared with Wednesday of last week. Staley, who farms at Rea, Mo.

has said "we think the farmers should have bargaining rights just as others who toil. If we can show the farmers that this goal is attainable we will succeed. We are not on strike against the processors or the consumers. All we want is a fair price for our products."

Macmillan arrived here Tuesday night from the British West Indies. He had flown to Key West, Fla., March 26 to discuss the Laotian crisis with Kennedy, at Kennedy's urgent invitation. Kennedy and his top advisers

are said to feel that the face-toface discussions with British. French, West German and other Allied government chiefs are of vital importance at this time. It appears that despite various friendly gestures from Soviet Premier Khrushchev at the outset of the Kennedy administration, the Western powers must brace themselves for a series of coldwar conflicts even though the Southeast Asian Communist threat is brought under control.

In preparation for today's meeting with Macmillan, Kennedy met at the State Department for about 21/2 hours Tuesday night with Secretary of State Dean Rusk: Secretary of the Treasury Douglas Dillon; Secretary of Defense Robert S. McNamara, David K. E. Bruce, U.S. ambassador to Britain: Gen Lyman L. Lemnitzer, chairman of " Joints Chiefs of staff, and other policy makers and advisers.

The President had gone to the State Department in late afternoon to speak and answer questions off the record at a meeting of 500 radio and television news editors and executives.

Without returning to the White House, Kennedy, who had just reacred Washington from a long Easter weekend at Palm Beach. Fla., went to Rusk's office for the 21/2 hour meeting which lasted until 8:30 p.m. "We just discussed some of the

problems," Kennedy told news-

men after the meeting. "We were getting ready for our discussions with Mr. Macmillan." Questioned about the prospects for a cease-fire in Laos, he said that "the Russians and the British

are in touch" on that problem.

By Jimmy Hatlo

First, there has been a drop of

over-all demand for loans spread throughout the financial community - for mortgages, instalment credit and long-term debt for corporate expansion, as well as the short-term borrowing of industry from banks. In the banks' case their customers often needed less short-term borrowing to carry reduced stocks or to meet trimmed payrolls.

Second, the money managers in Washington started months ago to ease the money market as a weapon against recession - by whatever name they may have been calling it then. This trend has continued under the new administration which wants logterm interest rates to fall to encourage recovery and economic growth, while short-term rates hold firm.

Big city banks are now scaling their interest charges on business loans from a base of 41/2 per cent. A year ago the minimum charge was 5 per cent.

The easy-money policy plus the recession's lessening of demand for long-term funds has sent yields from bonds down, so that banks are getting less from this source of investment. Mortgage rates now are softening, meaning still less income for the various institutions and individuals who are in this financial market.

Tracer Atom's Lifespan Gets New Dimension

By THE ASSOCIATED PRESS Slow-growing grass, a carbon life clock, and submarine fishing boats figure in the news of science and technology:

From new measurements, scientists of the National Bureau of Standards conclude that radioactive carbon-14 has a half-life of 5,760 years-not 5,568.

This is important because carbon-14 is one of the most valuable tracer atoms and time clocks on earth for estimating the age of archeological specimens.

The radioative carbon, created in the air by cosmic rays, gets into every living thing, plants, of cancer I had. animals, and man. After death, no more is added through intake asked questions. I talked to the how much radioactive carbon a by the American Cancer Society mummy or a pile of wood ashes for people like me, who never half-life is the time it takes for half of any given starting amount of the radioactive atoms to break down. With carbon-14, half of all the atoms in a specimen would decay or disappear in 5,760 years, and half of the remainder in the next 5,760 years, and so on.

Someday, the fishing trawler will be a submarine, spotting fish with electronic gear, and using electricity to herd and guide fish into a collecting "net" or open mouth on the sub. The predition comes from Dr. R. L. McHugh, U.S. Bureau of Commercial Fish-

Defiance College Opens Fund Drive

DEFIANCE, Ohio (AP)-A \$400. 000 physical education center at Defiance College was the goal of a drive in eight northwestern Ohio counties this week.

President Kevin McCann said Denver M. Eckert, president of the Eckert Packing Co. of Defiance, had been named to lead the campaign. Target date for conclusion of the drive in Allen. Defiance, Fulton, Henry, Paulding, Putnam, Van Wert and Williams counties is set for May 27.

Dr. McCann said the center will include a year-round swimming pool, and exercise, game and hobby facilities for all ages, to be available to all area residents.

Value of Early Detection

EDITOR'S NOTE - If present | This great man spends most of ciple. Just as trees and plants rates continue, 45 million Americans now living eventually will contract lung cancer. Arthur Godfrey, who has undergone the ordeal and now is serving as honorary education chairman of the American Cancer Society's April crusade, reports in this second of three articles on the danger, the value of early detection, and some promising research.

By ARTHUR GODFREY Written for The Associated Press Many of the letters I received after my recovery came from people who were worried about lung cancer. This is the No. 1 cancer killer of American males -and it's on the increase in both males and females. It's the type

When I began to get well, I of food or air. So a measure of experts, I read leaflets put out contain can tell how old it is. The went to medical school. And I read technical brochures that the society puts out for those who did, so that they can keep up with new developments in detection and treatment, and consulted doctor friends.

Here are some of the things I learned:

Lung cancer, like all cancers, is most curable when treated in the early stages. Again, surgery

and radiation are the only cure. Although doctors are saving more cancer patients than ever before, and although death rates for almost all types of cancer are either leveling off or being sharply cut, the death rate for lung cancer is soaring. It is, in fact, 500 per cent higher than it was 20 years ago. Lung cancer killed 37,000 Americans in 1960.

Why the increase? There are suspects, some of them proved: certain industrial chemicals now happily outlawed; cigarettes, air pollution and possibly other relatively new environmental factors.

How can you best guard yourself against lung cancer? By Chemical industry sources say avoiding known risks. Nonthe material already has been smokers have a low rate of lung

Ohio Group Takes Poll on Idle Pay Fund

COLUMBUS, Ohio (AP) - The Ohio Information Committee reported today that an opinion poll of its 2,000 business and professional members showed that 96 per cent voted to maintain the solvency of the Unemployment

Compensation Fund. The organization also reported that 94 per cent of those polled voted to preserve the merit rating principle whereby employers with steady employment pay less into the fund; 93 per cent voted to Tuesday night as Ohio awaited the raise rates on "red balance" employers who contribute less than their unemployment costs; 81 per cent voted to maintain the present

tax base at \$3,000. In addition, the O.I.C., which lists itself as an independent, nonpartisan, "grass-foots" political action committee, reported that 71 per cent voted that if necessary to maintain solvency of the fund all employers should accept a proportionate percentage increase in rates; 74 per cent voted that the benefits in Ohio should be reduced, and 94 per cent voted to eliminate "abuses and inequities in qualifications for benefits."

Results of the poll are to be presented to the House Industry and Labor Committee Wednesday

Flying Strangler Enters Guilty Plea

PITTSBURGH (AP) — Robert Philip Uhlman, accused of flying from Little Rock Ark., to Pittsburgh and strangling his wife, pleaded guilty to a general charge of murder.

Uhlmann entered the plea calmly and quietly just before he was to go on trial in Allegheny County (Pittsburgh) Criminal Court.

He is charged with beating and strangling his 37-year-old wife, Gloria Mae, last Aug. 21 at the couple's home in nearby Baldwin Twp.

According to authorities he flew to Pittsburgh, killed his wife and then flew back to Little Rock on the same day. He was arrested in Little Rock about 12 hours later.

SAN FRANCISCO (AP)-When ning guests of Mr. and Mr. Carl | Emmett Hall heard giggling in side a 14-foot-high tank, he figured the two painters inside were enjoying themselves.

But when the giggling continued for 15 minutes, Hall figured nothing could be that funny.

So Hall called Tom Mason, sution Co., who clambered into the Mr. and Mrs. Jake Follrod a and tank and found Charles Hasford, family, Miss Mary Hinton, and Mr. 35, and Don Seilhymer, 26, reeling around, stupefied by a combination of paint fumes and heat.

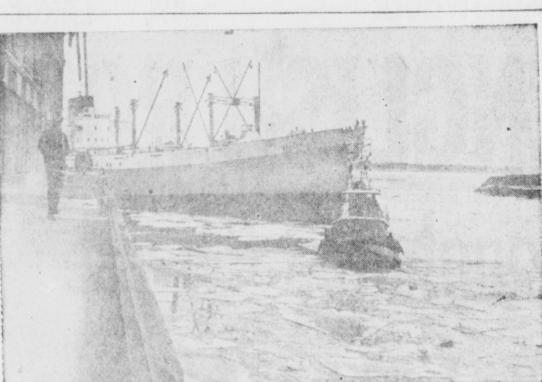

Then Mason started giggling. Hall called an ambulance. Mason, Hasford and Seilhymer were treated at a hospital and pronounced in good condition.

LAOS, A MERE STOPOVER-The Communist effort in Laos, preceded by success in a similar operation which split Viet Nam into half Communist, half free, points up their quest for control of populations. Arrows indicate the pathway down to teeming Indonesia, the probable ultimate goal in the drive south. Thailand serves as an easy branching-out tidbit. Indonesia's quarrel with the Netherlands over Western New Guinea is likely to serve as a Communist wedge to get into the 3,000-island nation. South Viet Nam has been under pressure ever since Communist North Viet Nam was split off seven years ago. A division of Laos into half Communist, half free would result the same. (Central Press)

Ex-Pro Grid Star Tapped For Sheriff

NEWPORT, Ky (AP)-A newlyformed group of vice - crusading businessmen Tuesday night chose George Ratterman, former Cleveland pro football quarterback, to run as an independent for sheriff of Campbell County.

The action came at a second meeting of a group called the Committee of 500, set up last month as a non-partisan, non-denominational organization to produce candidates for office in Newport and Campbell County.

Ratterman said he would run for sheriff only if the group wants a complete cleanup of vice in the county and if supporters make a perfectly honest fight.

He said, "I am not willing to sacrifice four years of my life if this is to be nothing but a temporary clamor that will eventually die out and fall by the wayside.'

Ratterman, 34, asserted that "some members of the Committee of 500 have been told by representatives of the syndicated gambling interests that there is nothing we can do that they have grown so powerful, that the coming elections have already been decided and that the mobsters it at all, as their own views, in have already handpicked their one way or another. They were corruped citizens whom they will sweep into office."

Ratterman, who retired after 10 years in pro football, is now a businessman in Cincinnati.

THE MASTERS—For the 25th time, the Masters golf tourney at Augusta, Ga., takes the sports spotlight with play scheduled April 6-9 and Arnold Palmer, spectacular winner last year and in 1958, the favorite again. The Masters draws its competitors by invitation only, with a field of 94 expected to start. Most of the big names in golf, today and

yesterday, are included with some predicting that Gary Player of South Africa and Bob Goalby and Gene Littler of the U.S. are most likely to give Palmer the toughest fight. A new trophy is up this year, depicting the old Manor House on the course, a building which now serves as the main club house. The event will be televised April 8-9. (Central Press)

THAT'S THE TICKET-It sure is, for the Minnesota Twins baseball club, new franchise holder in the American League. Mrs. Ronald Riemersma, one of the ticke sellers, says she's swamped for orders. Some 24,000 tickets already have been sold for the opener against Washington April 21, in the Metropolitan stadium.

weight champion Floyd Patterson will face either England's Henry Cooper or Eddie Machen next while Sonny Liston settles for Sweden's Ingemar Johansson. That appeared to be the picture

for boxing's big boys today with both bouts ticketed for September. The title go probably will be held in New York's Yankee Staium and the Litton-Johansson international special in Ingemar's home town of Goteborg, Sweden.

Cooper, the British and British Empire heavyweight king from London, has the inside track for Patterson, it is understood, although Machen's hopes were raided by a promoter's statement Tuesday. Tom Bolan, recently appointed

executive director of Feature Sports Inc., said the contenders field for the Patterson plum had narrowed down to Machen and That leaves out Liston the No. 1 contender from Philadelphia.

Machen, the No. 2 contender from Portland, Ore., will have to show impressively against Mike DeJohn, No. 6 contender from Syracuse, N.Y., in their Monday night clash at San Francisco to merit a look-in.

"Patterson told me he will fight in September against a top challenger," said Bolan. "He asked me to talk with two or three proposed challengers. He said he felt Machen, because of his high ranking, should be given serious consideration. So it looks like either Machen or Cooper in September.

Johansson himself passed on the latest word on the proposed fight with Liston. Visiting Oslo where the movie of the March 13th fight was being shown. Ingo said negotiations were under way for the fight with Liston in Goteborg.

Ohio Map Job **Given Priority** In Capital

WASHINGTON (AP)-The government has a large portion of its map makers working on a hurry. up job in Ohio

Thomas B. Nolan, director of the geological survey, told a House Appropriations Subcommittee that the project has forced him to cut back on map work elsewhere. Nolan, whose testimony was

made public today, told a reporter that about a year ago Ohio had to have an up to date topographical map (one showing land elevation for use in its road program). An arrangement was made to

finish the map in three years, at a cost of \$1 million annually to the government with the state matching these expenditures. With only \$10 to \$12 million in

federal funds available for the whole country for this purpose, he said, this has meant a large concentration on Ohio.

The last topographic map made of Ohio, he said, was in the 1890's or early 1900's.

The judge had ruled on a motion by Marino's attorney, Irwin Stambor, who said the action should be dismissed because a gambling debt is void, unenforceable and uncollectable.

Gelbman argued that the \$20, 000 debt run up by Marino, a Youngstown businessman, was not a common gambling debt, because after Marino lost a dice in August 1958, he made arrangements to pay the debt.

Marino gave the plaintiff a check for \$20,000 with assignments from insurance claims as surety for payment, Gelbman said. But nothing was done to make the check good and wipe out the debt, he
